Fire Safety Policy Statement

Boss Freight Terminal Limited is committed to developing; maintaining and sustaining a Fire Policy based on internationally recognized ISO 14001, ISO 45001 standards and Fire Risk Reduction Rules 2007.

In meeting the above, we are committed to ensure:

- Adequate means of escape in case of fire exist for all persons in the premises.

- All means of escape are correctly maintained, always kept free from obstruction and available for safe and effective use.

- The means of escape have adequate emergency lighting (in case of fire) which will be maintained in efficient working order.

- Adequate communication systems are available and properly maintained for use during fire emergencies, and sufficient firefighting equipment is provided and kept in efficient working condition.

- Appropriate instruction will be given to all persons in the premises on evacuation procedures.

- Effective management procedure is in place to respond to and deal with the aftermath of a fire and appropriate fire

- A fully trained team of fire marshals is available to manage fire emergency situations.
